- Odporúčaná frekvencia: 1.5 kHz
- Môže byť namontovaný otočený o 90°

Klang+Ton 02/2018 “The natural sound of the speaker (speaker building concept Monolith of Klang+Ton) is kept up to levels which can simply not be reached with standard hi-fi speaker systems, not even with full-fledged floor-standing speaker systems. Thus, a rock concert with original volume levels is just as much fun as a classical concert virtually in the middle of an orchestra. (Speaker building concept Monolith with TF-1525, TF-0420MR, CDX1-1010 and MRH-170).”

Parametre	
Frequency range	1,000-20,000 Hz
Mounting cutout	Ø 155 mm
Mounting depth	86 mm
Radiation angle (vert./hor.)	50°/80°
Dimensions	178 x 178 x 88 mm
Weight	0.195 kg
